Confidence: 95%

The AI successfully executed a complete user journey on the NGPF Bank Simulator, from landing on the homepage to reviewing account activity details. The workflow demonstrates a smooth navigation through key actions such as starting the simulation, accepting prompts, expanding the sidebar, and verifying specific account activity data.

Step-by-Step Walkthrough

1. AI Arrives at Homepage

The AI navigates to the NGPF Bank Simulator homepage, ready to begin the workflow test.

<https://www.ngpf.org/bank-sim>

2. AI Starts Simulation

The AI triggers the simulation and is greeted with a welcome dialog, confirming the scenario initiation.

<https://www.ngpf.org/bank-sim/home?returnUrl=%2F>

3. AI Expands Accounts Sidebar

The AI expands the 'Accounts' section in the sidebar to access account activity options.

<https://www.ngpf.org/bank-sim/>

4. AI Selects Account Activity View

The AI selects the 'Account Activity' item, opening the interface to review transaction history.

<https://www.ngpf.org/bank-sim/>

5. AI Reviews Account Transactions

The AI displays the detailed account activity, verifying that transaction ID '1200001' is visible as required.

Discovered Test Scenarios

#	Scenario	Type	Priority
1	Discovered Workflow: e2e_business_workflow - Complete User Journey	e2e_business_workflow	high

Discovered Workflow: e2e_business_workflow - Complete User Journey

Comprehensive test covering the journey from site entry to account activity review and verification.

A user navigates to the NGPF Bank Sim site, initiates simulation, dismisses the introductory dialog, expands the accounts section, accesses account activity, views a savings account, and verifies the presence of a specific account ID as observed in the successful agent flow.

- Use waitForSelector to ensure modal/dialog components are closed.
- Sequentially interact with sidebar navigation to expand/collapse items.
- Explicitly validate visibility of account ID cell.
- Ensure accurate selector referencing for elements within web components.
